Dear John,

Pursuant to our conversation and subject to finding someone going to town who can mail this, here are the carbon of the Dell distribution contract and copies of my letter of October 8 to Roberts listing enclosures and of October 14 to Tobey reporting what I had done following our agreement. I forgot to make a copy of my letter to Roberts of the 14th. for you. I told you its contents by phone.

There is also enclosed a single sentence letter to Murray Kempton.

I do hope there will be some way for this to get off before tomorrow night, our normal weekend situation. Maybe I can get someone to mail it in DC in the am, if I can find one of our neighbors who is going in.

Yours,
